

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating since 1974, becoming the largest independent spreader company all-around the world. They are a devoted manufacturer of spreaders utilized for many various applications such as the handling of containers, swap bodies and trailers.

ELME currently employs more than 125 employees with all engineering is done in house by way of using all of the most up-to-date FEM tools and CAD systems. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes around the globe.

The ELME product range offers spreaders intended for various trailer and container handling operations. A few of their inventory include: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes as well as a wide range of additional parts.

ELME production and manufacturing is done in a highly automated purpose built factory. In the year 2008, they made over one thousand one hundred fifty spreaders by means of using top quality elements in order to ensure dependability and top standards while offering reasonable prices. Major features of ELME consist of design simplicity, market response and ground-breaking modular spreader concept.
