

Concrete Hoppers

Concrete Hoppers - The self-dumping hopper attachment can automatically trigger to both unload and release when the bumper release contacts the side of a dumpster. After dumping is done, the hopper is able to return to original locked and upright position. This particular piece of machinery also comes with a cable that allows operation from the seat of the lift truck so as to have the option of manually unloading the hopper. There is a locking chain provided to be able to secure the hopper to the tine truck. This product is made with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish to be able to maintain durability.
